## Exploring Christian Science... ...in a safe and friendly atmosphere

This annual camp is aimed at young people and families interested in exploring and sharing Christian Science, We aim to provide an environment in which people of all ages can share and explore Christian Science and learn from one another in a safe and supportive environment.

Easter Camp is a lovely opportunity to share spiritual ideas while having fun taking part in different sports, crafts, dancing, baking and taking lovely walks along the Welsh coast.

EASTER CAMP 2018

# THE NITTY-GRITTY...

## Accommodation

We are staying in self-catering static caravans which will be allocated by gender or family in groups of four to eight. Each caravan “family” will be responsible for preparing their own meals. There will be an opportunity to go food shopping at the start of the holiday.

## Metaphysical Support

A Journal listed Christian Science Practitioner and a Christian Science Nurse will be available throughout Easter Camp free of charge for those campers seeking prayerful support. A full-time librarian will also manage an on-site Reading Room with resources and activities to aid campers' study.

## Expectations of campers

In order to foster an environment conducive to spiritual and personal growth, we require all campers to conduct themselves according to a high moral standard. This includes refraining from extra-marital sexual activity and abstinence from recreational drugs, alcohol, and tobacco (including e-cigarettes). Thank you for respecting these rules whilst at Easter Camp.

For the first time, applications are also available online at [EASTERCAMP.ORG.UK](http://EASTERCAMP.ORG.UK)
